Our show combines magic, comedy, ventriloquism, and psychic entertainment.

As magicians, we will entertain you in an enchanting way. As psychic entertainers, we will entertain you with the illusion that we have read your mind, predicted your thoughts or actions, and told you your deepest secrets. Overall, we will entertain you and allow you to imagine, believe, empathize, and experience the fantasy and magic you once experienced as a child.

We are both active members of the International Brotherhood of Magicians and the International Magicians Society. Since 1995, we have been entertaining folks and leaving them with lasting, enjoyable memories.

In 2003, Larry received a Doctorate in the Art of Magic from the Magic Academy of New York.

In 2004, Larry won 1st place in the Stand-up Magic Competition in Sacramento held by the local IBM Ring and SAM Assembly.

We perform for a variety of venues:

- Private Parties
- Social Events
- Corporate Events

"Now it be time ta sit back an' relax whilst Captain Jack an Nyre takes ye on a nautical journey. One leg of this journey takes us to the mystical an' magical enchantment of yer youth, whilst the other leg takes us to the mysteries an' power of the mind."

The only question remaining be:

"Can ye sail under the command of a pyrate...or can't ye?"
